The land and building in which the society is functioning are owned by Government of Kerala. An amount of ₹ 7.02 lakhs per year is earmarked as lease rent to be paid to Government for use of land and building. The society has requested Government to transfer the ownership of the land and building to the Society and steps are being taken up at Government level to transfer the same.

Strengths

KBPS is one of the major players in the printing industry in public sector having business of printing of text books and lotteries for the State Government. It also carries out different commercial printing works. The society has ample scope for expansion & diversification in its field as well as other commercial activities. The successful distribution of textbooks to School Societies and distribution of Lottery tickets to various district lottery offices demonstrate the adaptability and the capability of the Society. Economies of scale are the cost advantage that KBPS obtains due to size. This is mainly because of a team of well experienced workforce, suitable machineries employed and favourable working environment in the Society. The Society's high point is its capacity to take up and execute print orders of varied nature, volume and customers. The Society has made a name for the timeline execution of work orders.

Weakness

The printing industry is undergoing rapid technological changes and in order to cope up with the great speed of technology changes, it becomes inevitable to induct the latest and sophisticated machinery to stay in the business. We are facing stiff competition in the market from various printing concerns employing the state of the art technology. The working capital of the Society is getting drained out due to non-releasing of fund in time mainly from General Education Department and various Government Departments. The ownership of Land & Building is still in the hands of Government and transfer of ownership to KBPS will be a boon to the society in future.

Opportunities

Even though electronic media replaces printing industry in every sense, the consistency shown in printing materials like text books, lotteries, booklets, Journals etc over the years and sustained performance in the past few years elevated the name of KBPS to a higher place among the public sector industries in the State. The Society has realized the scope and utilized it to the maximum and this brought the Society as a major player in the public sector printing concern in the State. Market is not a limiting factor to KBPS. There is scope for printing text books of other States and CBSE syllabus textbooks. Greater innovation can help KBPS to produce unique products and service that meet customer needs. There is wide scope for printing products which need high security like Cheques, Licences, ATM cards, Labels, QR and Barcodes etc. The Society desires to become a Printing Hub of the State to provide all the printing related requirements for Government of Kerala and other States through modernization.

Threats

Emergence of Information Technology in all the fields will adversely affect the printing industry. Fast technological changes in the industry can make KBPS less competitive, if the Society will not implement the radical changes happening in the industry. In addition to this, the implementation of tablet computers among school students will somehow adversely affect our text book production in long run. If Government quickly changes business rules in a way which may adversely affect the business of KBPS, such a situation can also increase the risk factor of KBPS in the industry. The taste of the customers of the Society may change very quickly. Hence KBPS must be very much alert in knowing the requirement and the taste of our customers.

New Machinery and Asset

Goss WS – D598 Web offset printing machine and Automatic Knife Grinding Machine Polymaster were installed during the year.

New Assignment

The Society is planning to implement ERP system which will ensure better integration between various departments.

Management's responsibility for the financial statements

The Society's Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Society, in accordance with the provisions of their Memorandum of Association and Rules and Regulations 1976 amended from time to time and Accounting Standard issued by the Institute of Chartered Accountants of India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Society and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Society's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Society or to cease operations, or has no realistic alternative but to do so.

The Management are also responsible for overseeing the Society's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. We are also responsible for expressing our opinion on whether the society has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Society's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify

our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Society to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

We further report that:

- a) In our opinion, proper books and accounts have been kept by the Society so far as appears from our examinations of those books.
- b) The Balance Sheet and Income & Expenditure Account dealt with by this report are in agreement with the books of account.
- c) In our opinion, the Balance Sheet and Income & Expenditure Account comply with the Accounting Standard issued by the Institute of Chartered Accountants of India.

Dated 24.12.2019, State Government has ordered the stoppage of the Government approved Contributory pension scheme and re-instating E.P.F. pension scheme of Central Government. 156th meeting of Governing Body and 15th meeting of Pension Board held on 29-01-2020 approved to comply the Government Order. 10. The following accounts of text book office are not reconciled with the society's accounts as on 31-03-2020. This is due to the fact that, Technical committee for settlement of accounts has not been constituted in this regard.

SL No	Particulars	Amount
1.	DIRECTOR OF PUBLIC INSTRUCTION	75,08,38,164.39 (Dr)
2.	REBATE TO DPI	75,90,595.21(Cr)

The reason for the above balance is a result of un-reconciled balances outstanding after 31-03-2006 (date of last reconciliation) and receipt of advance payments against proposed revision of rates till 31.03.2016. Since the revision of rates for text book printing with effect from 01-04-2006 to 31-03-2016 is not finalized, any income which might have arisen on account of rate revision is not recognized in the year 2019-20.

During the Financial Year 2016-17, Government accorded sanction for increase of 35% over the existing rate of printing charges of School Textbooks for the Academic Year 2016-17 vide G.O (Ms). 84/2016/G.Edn Dated 20-05-2016. The Society has requested Government to increase the printing charges of Textbooks from the Academic Year 2019-20 onwards. (*Sch. no VI: Sundry Debtors*)
